Width: 48.5 cm (19.1")

Description

A stunning early flat-bottomed Noah's ark from the Erzgebirge region of Germany with over 50 original animals. It's original paintwork shows some signs of its age but that doesn't detract from such a beautiful object. Some of the animals are a little legless (or even headless) but that's to be expected after almost 200 years of play.
