

Silver mounted bamboo walking cane

£145

REF: 6382

Height: 93 cm (36.6")

Description

A Victorian gentleman's bamboo walking cane with ornate repoussé silver handle, hallmarked for London 1890.

Repoussé silver is a metalworking technique where silver is shaped and decorated by hammering from the reverse side to create intricate, raised designs. This ancient craft allows for detailed, textured patterns, often seen in jewellery, silverware, and decorative items, adding elegance and artistry to each handcrafted piece.
