

18ct white gold half eternity ring

£495

Description

An 18ct white gold half eternity ring set with six brilliant cut diamonds and five baguette diamonds

UK Ring Size: P

A half eternity ring features gemstones, usually diamonds, set along only the top half of the band, leaving the lower half plain for comfort and durability. This design offers the sparkling beauty of an eternity ring while being more practical for everyday wear.

The style allows for easier resizing compared to full eternity rings and tends to be more affordable due to fewer stones. Half eternity rings are popular as wedding bands, anniversary gifts, or stackable fashion rings. Their elegant, balanced look combines timeless romance with modern functionality, making them a versatile choice for those seeking both beauty and practicality.
