

1920s diamond solitaire ring

Sold

Description

A 1920s 18ct yellow gold and platinum diamond solitaire ring.

Solitaire rings are classic and timeless pieces of jewellery, known for their simplicity and elegance. Featuring a single, prominent gemstone-most commonly a diamond-these rings highlight the beauty of the stone without distraction. The minimalist design allows the gem to take centre stage, making it ideal for engagement rings.

Solitaire settings are versatile and can be mounted on various band styles, from traditional gold to modern platinum. Their clean aesthetic appeals to a wide range of tastes and makes them a popular choice for both romantic proposals and meaningful gifts. Ultimately, solitaire rings symbolise enduring love and refined sophistication.
