

1960s 9ct gold smoky quartz cocktail ring

£120

REF: 5590

Description

A strikingly mounted 1960s 9ct gold smoky quartz cocktail ring.

Smoky quartz is a translucent to opaque variety of quartz with a distinctive grey to brown colour. Its natural hues, caused by radiation, range from light grey to deep brown. Valued for its grounding and protective qualities, smoky quartz is used in jewellery and as a healing stone in spiritual practices.
