

Victorian 18ct yellow gold ring set with two natural salt water pearls

£495

Description

A Victorian 18ct yellow gold ring set with two natural salt water pearls in crown settings, circa 1880.

Natural saltwater pearls form inside oysters in ocean environments, renowned for their lustre and iridescence. Each pearl develops uniquely, with subtle variations in colour and shape. Valued for their beauty and rarity, these pearls are used in fine jewellery, symbolising elegance and natural craftsmanship, and are highly prized by collectors.
