Description

A pair of mid century ornate Rococo style gilt table lamps.

Rewired with brown twisted fabric flex and PAT tested

Rococo style emerged in the early 18th century in France, characterised by its ornate detail, elegance, and playful themes. It is marked by intricate patterns, asymmetrical designs, and a light colour palette, often featuring pastels and gold accents. Rococo architecture, furniture, and art emphasise curves and natural forms, drawing inspiration from nature and classical motifs. The style reflects a sense of luxury and leisure, often associated with the French aristocracy and the lavish lifestyles of the period.
